

UII and nonUII GFP

What is GFP?

The new definition is:

“Property in the possession of, or directly acquired by, the Government and subsequently furnished to the contractor for performance of a contract. Government furnished property includes, but is not limited to, spares and property furnished for repairs, maintenance, overhaul, or modification. Government furnished property also includes contractor acquired property if the contractor acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract.”

- from FAR case 2008-011, which was passed as a final rule in July 2010.

- GFP can be:
 - Ull items
 - nonUll (bulk) items

As of June 2011, the Registry has the capability to accept and report data for both Ull and nonUll items

How do I Know It's GFP?

Status as a GFP item is indicated by a “Custody” record.

- For UII items this includes a Contract Number, CAGE/DUNS/DoDAAC of the Primary Contactor, Sent or Received Date, Category and Status
